TABLE 7.1 - LIST OF CHALK GRASSLAND INDICATORS WITHIN BOROUGH SNCIS

SPECIES	COMMON NAME	NATIONAL STATUS	SITE CODE																	
			SNCIE1	SNCIE7	SNCIE14	SNCIE18	SNCIE29	SNCIE38	SNCIE77	SNCIE78	SNCIE86	SNCIE89	SNCIE94	SNCIE98	SNCIE101	SNCIE108	SNCIE109	SNCIE113	SNCIE115	
<i>Anthriscus vulneraria</i>	Kidney Vetch	Native		Y																
<i>Asperula cynanchica</i>	Squillanwort	Native		Y																
<i>Blackstonia perfoliata</i>	Yellow-wort	Native	Y																	
<i>Biza media</i>	Quaking-grass	Native	Y																	
<i>Campanula glomerata</i>	Clustered Bellflower	Native								Y										
<i>Carina vulgaris</i>	Carline Thistle	Native	Y																	
<i>Centaurea scabiosa</i>	Greater Knapweed	Native	Y																	
<i>Cirsium acule</i>	Dwarf Thistle	Native	Y																	
<i>Coeloglossum vfride</i>	Frog Orchid	Native																		
<i>Doronicum decumbens</i>	Heath-grass	Native																		
<i>Euphrasia pseudobakeri</i>	An eyebright	Native		Y																
<i>Festuca ovina</i>	Sheep S-fescue	Native																		
<i>Filipendula vulgaris</i>	Dropwort	Native																		
<i>Gentiana amarella</i>	Autumn Gentian	Native	Y																	
<i>Helictotrichon pratense</i>	Meadow Oatgrass	Native																		
<i>Helictotrichon pubescens</i>	Dewy Oat-grass	Native																		
<i>Hippocrepis comosa</i>	Horseshoe Vetch	Native																		
<i>Leontodon hispidus</i>	Rough Hawkbit	Native	Y																	
<i>Linum catharticum</i>	Fairy Flax	Native	Y																	
<i>Ophrys apifera</i>	Bee Orchid	Native																		
<i>Origanum vulgare</i>	Wild Marjoram	Native		Y																
<i>Pilosella officinarum</i>	Mouse-ear-hawkweed	Native		Y																
<i>Pimpinella saxifraga</i>	Burnet Saxifrage	Native	Y																	
<i>Plantago media</i>	Hoary Plantain	Native		Y																
<i>Polygala vulgaris</i>	Common Milkwort	Native																		
<i>Primula veris</i>	Cowslip	Native																		
<i>Ranunculus bulbosus</i>	Bulbous Buttercup	Native		Y																
<i>Rhinanthus minor</i>	Yellow-rattle	Native																		
<i>Sanguisorba minor</i>	Salad Burnet	Native	Y																	
<i>Scabiosa columbaria</i>	Lesser Scabious	Native																		
<i>Spiranthes spiralis</i>	Autumn Lady's-tresses	Native			Y															
<i>Thymus polytrichus</i>	Wild Thyme	Native	Y																	
<i>Trisetum flavescens</i>	Yellow Oat-grass	Native																		
<i>Viola hirta</i>	Hairy Violet	Native

TABLE 7.10 - WATERBODIES WITHIN EASTBOURNE BOROUGH

POND NO.	SITE NAME	GRID REFERENCE	FUNCTION	NATURE CONSERVATION DESIGNATION	STATUS IN 2007
1	Hide Hollow Farm	TQ 629034	Elongate pond within woodland.	None	Unknown. No public access.
2		TQ 629033	Simple pond within woodland.	None	Unknown. No public access.
3		TQ 629032	Simple pond, possibly spring-fed.		Confirmed.
4	Langney Crematorium	TQ 628031	Series of three rectangular artificial ponds.	Langney Crematorium SNCI (No. E14)	Confirmed.
5	Crumbles Lake, Princes Park	TQ 627004	Large balancing pond, receiving discharge from Crumbles Sewer. Large numbers of waterfowl present.	None	Confirmed.
6	Langney Centre Pond	TQ 624 028	Large pond, surrounded by mature trees.	Langney Centre Pond SNCI (No. E21)	Confirmed.
7	Woodland adjacent to Langney Centre Pond	TQ 625028	Three separate ponds within woodland, possibly part of former clay quarry.	None	Unknown. No public access. Reported to suffer from fly-tipping.
8		TQ 625028			
9		TQ 625027			
10	Langney Village Pond	TQ 632022	Large pond.	None	Confirmed.
11	Highfield County Junior School Environmental Pond Area	TQ 609023	Large pond, surrounded by mature trees.	Informal Conservation Area	Confirmed.
12	The Coppice	TQ 595018	Former decoy pond within woodland. Infilled in 1960s, confirmed in 2000 survey.	The Coppice SNCI (No. E96)	No longer present.
13	Hampden Park	TQ 599017	Hampden Lake, set within amenity grassland and woodland. Large numbers of waterfowl present.	Hampden Park & Ham Shaw SNCI (No. E117)	Confirmed.
14		TQ 600017	? Pond within water garden.		Not examined.
15	Land east of Broadwater Way	TQ 606016	Pond within woodland.	None	Not examined.
16	Junction of Cross Levels Way and Railway	TQ 609015	Balancing pond, infilled with swamp vegetation	None	Not examined.
17	Motcombe Park	TQ 597996	Motcombe Pond, with waterfowl present.	None	Confirmed.
18	Adventure Park	TQ 624999	Pond within activity playground.	None	Confirmed.
19	Compton Place	TQ 602987	? Pond along northern boundary.	None	Not examined.
20	Shinewater Park [Eastbourne Park]	TQ 611033	Shinewater Lake.	None	Confirmed.
21		TQ 615028	Hydneve Lake.	None	Confirmed.
22		TQ 613034	Reed-filled scrape.	None	Confirmed.
23		TQ 613033	Reed-filled scrape.	None	Confirmed.
24		TQ 613033	Reed-filled scrape.	None	Confirmed.
25		TQ 615033	Reed-filled scrape.	None	Confirmed.
26		TQ 614031	Round pond, with swamp.	None	Confirmed.
27		TQ 614031	Reed-filled scrape.	None	Confirmed.
28		TQ 615025	Balancing pond.	None	Confirmed.
29		TQ 616025	Balancing pond.	None	Confirmed.
30		TQ 616026	Reed-filled scrape.	None	Confirmed.
31	Land east of Golden Jubilee Way (A22) [Eastbourne Park]	TQ 608032	Un-named Lake	None	Confirmed.
32	Willingdon/West Langney Levels [Eastbourne Park]	TQ	West Langney Lake.	None	Confirmed.
33		TQ	Un-named Lake.	None	Confirmed.
34		TQ 621023	? Stock pond.	None	Confirmed.
35		TQ 624021	? Stock pond.	None	Confirmed.
36		TQ	Balancing pond	None	Confirmed.
37	Eastbourne Golfing Park	TQ 610015	Water features.	None	Confirmed.
38		TQ 611014	Water features.	None	Confirmed.
39		TQ 612014	Water features.	None	Confirmed.
40		TQ 612014	Water features.	None	Confirmed.
41		TQ 612015	Water features.	None	Confirmed.
42		TQ 613015	Water features.	None	Confirmed.
43	Eastbourne Miniature Railway	TQ 612011	Lake	None	Confirmed.
44	Eastbourne Levels [Eastbourne Park]	TQ 609010	Balancing Lake.	None	Confirmed.
45		TQ 603010	Pond surrounded by mature Crack Willows.	None	Confirmed.
46	Eastbourne Downland Estate	TQ 580018	? Pond.	None	Not examined.
47		TQ 583016	Woodland pond.	None	Not examined.
48		TQ 580010	Woodland pond.	None	Not examined.
49		TQ 584020	Pond.	Willingdon Down SSSI	Not examined.
50		TQ 582999	Pond.	None	Not examined.
51		TQ 574006	? Dewpond	None	Not examined.
52		TQ 588990	? Dewpond	None	Not examined.
53		TQ 583990	? Dewpond	None	Not examined.
54		TQ 588991	Dewpond	None	Not examined.
55		TQ 576983	? Dewpond	None	Not examined.
56		TQ 567980	? Dewpond	None	Not examined.
57		TQ 577978	? Dewpond	None	Not examined.
58		TQ 567973	Dewpond	None	Not examined.
59		TQ 579971	Dewpond	None	Not examined.
60		TQ 584971	Dewpond	None	Not examined.
61		TQ 590972	Dewpond	None	Not examined.
62		TQ 589970	? Pond	None	Not examined.
63		TQ 588969	Dewpond	None	Not examined.
64		TQ 592965	Dewpond	None	Not examined.
65		TQ 589965	Dewpond	None	Not examined.
66		TQ 589966	Dewpond	None	Not examined.
67		TQ 587968	Dewpond	None	Not examined.
68		TQ 582964	Dewpond	None	Not examined.
69		TQ 573968	Dewpond	None	Not examined.
70		TQ 579964	? Pond	None	Not examined.
71		TQ 576961	Dewpond	None	Not examined.
72		TQ 572960	? Dewpond	None	Not examined.
73		TQ 564963	Dewpond	None	Not examined.
74		TQ 567955	Dewpond	None	Not examined.
75		TQ 571956	Dewpond	None	Not examined.
76		TQ 575954	? Pond	Seaford to Beachy Head SSSI	Not examined.
77		TQ 578954	? Pond	None	Not examined.

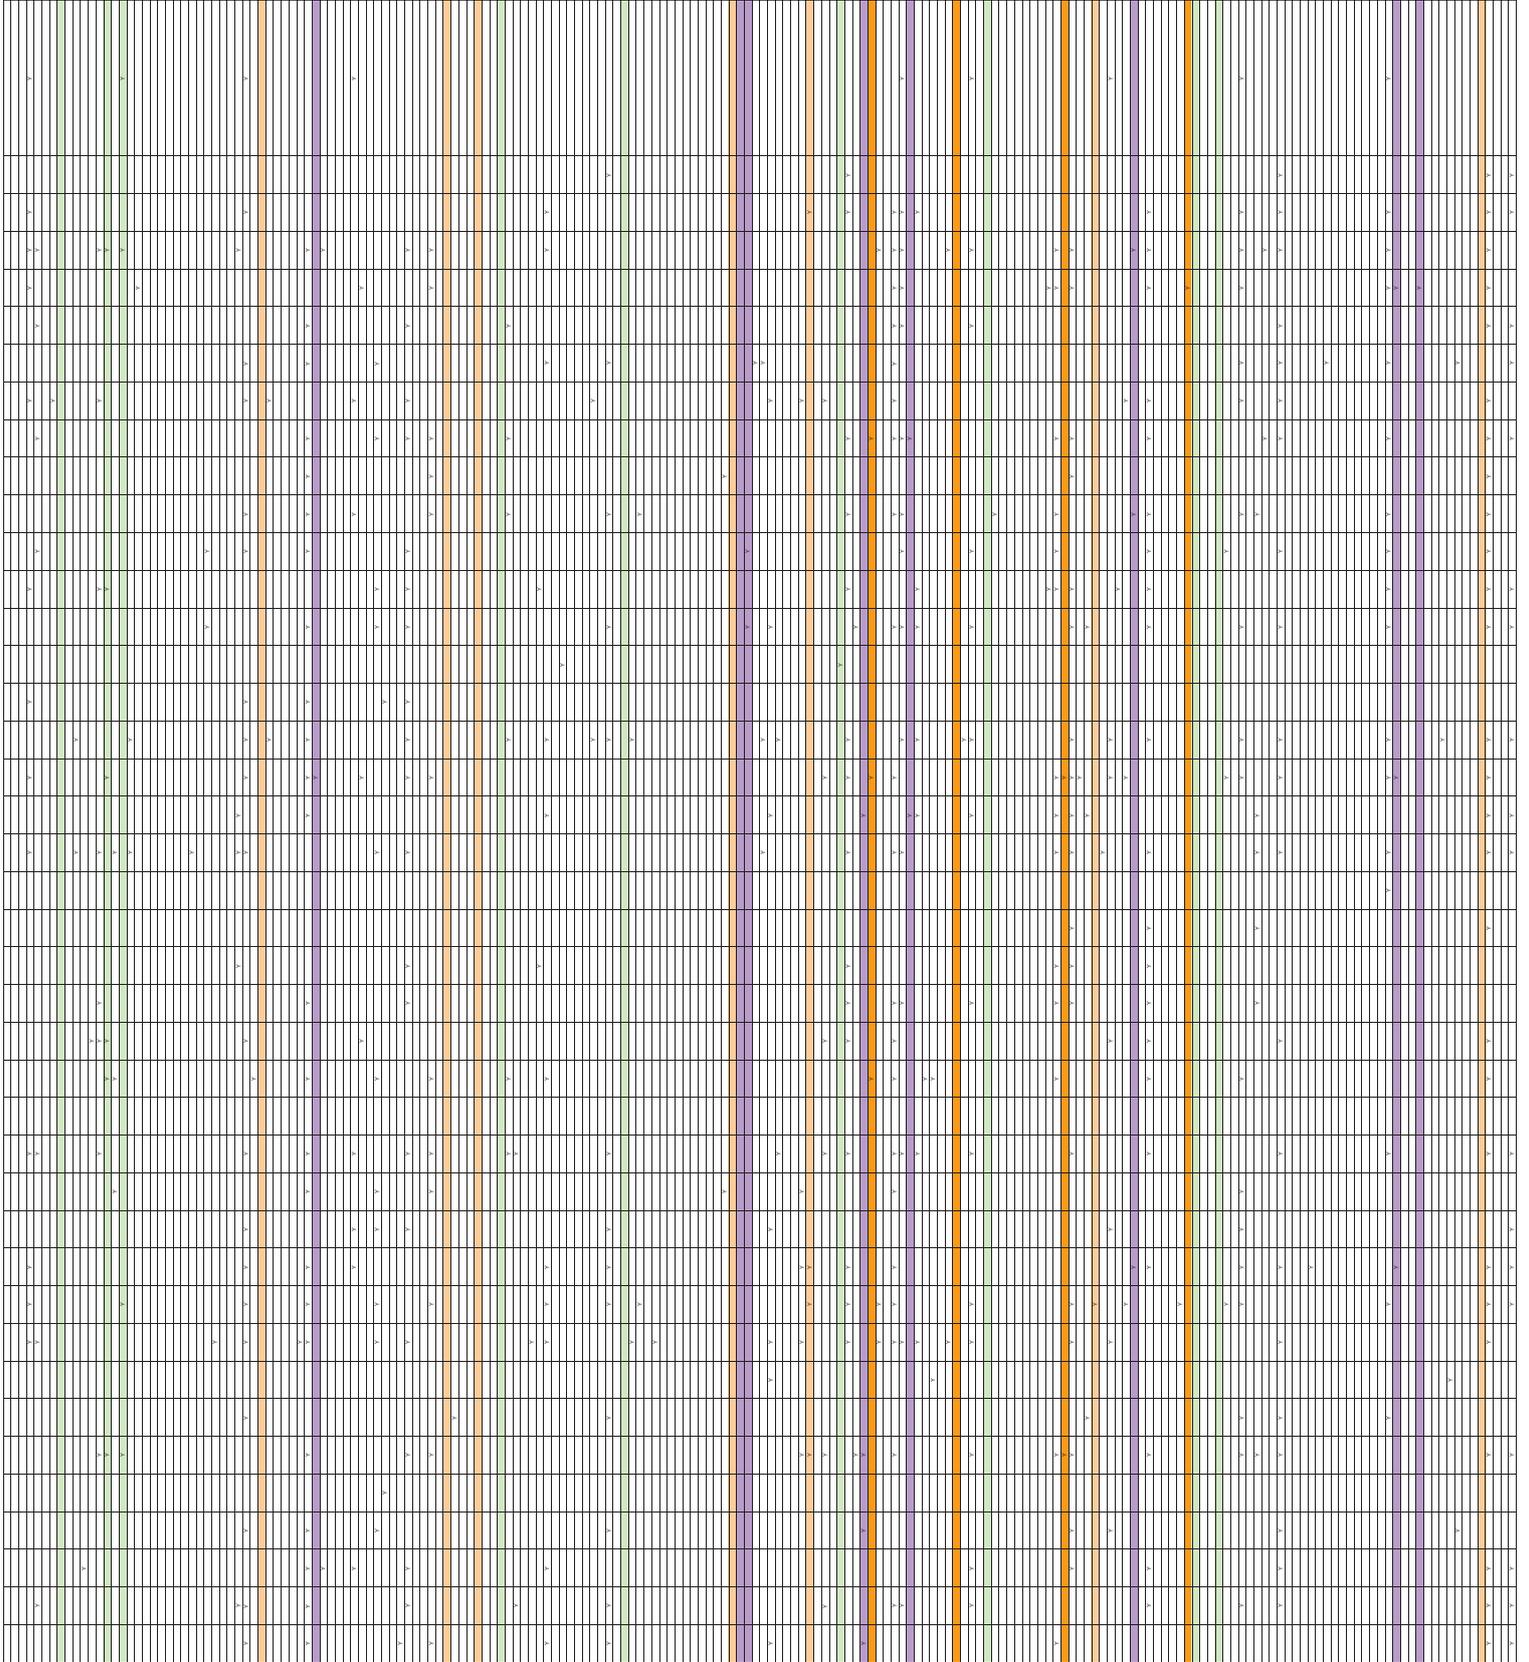

The image displays a large grid with 20 columns and 30 rows. The grid is divided into 10 vertical sections by colored lines: orange, green, purple, orange, purple, orange, purple, orange, purple, orange. Each section contains a series of small, faint markings or characters, possibly representing data points or a specific pattern. The markings are most visible in the orange and purple sections, appearing as small, dark, irregular shapes. The green and purple sections also contain some markings, though they are less distinct. The overall appearance is that of a data visualization or a complex pattern on a grid.

APPENDIX 1 - PROVISIONAL FLORAL FOR EASTBOURNE PARK (Based on 2005 Results)

SPECIES	COMMON NAME	NATIONAL STATUS	COUNTY STATUS	STATUS WITHIN PARK
<b>Horsetails &amp; Ferns (6 spp.)</b>				
<i>Dryopteris felix-mas</i>	Male Fern	-	-	Localised
<i>Equisetum arvense</i>	Field Horsetail	-	-	Widespread
<i>Equisetum fluviatile</i>	Water Horsetail	-	-	Frequent
<i>Equisetum palustris</i>	Marsh Horsetail	-	-	Localised
<i>Ophioglossum vulgatum</i>	<b>Adder's-tongue Fern</b>	-	Occasional	Localised
<i>Phyllitis scolopendrium</i>	Hart's-tongue Fern	-	-	Localised
<b>Grasses, Sedges &amp; Rushes (62 spp.)</b>				
<i>Agrostis capillaris</i>	Common Bent	-	-	Widespread
<i>Agrostis stolonifera</i>	Creeping Bent	-	-	Widespread
<i>Alopecurus geniculatus</i>	Marsh Foxtail	-	-	Widespread
<i>Alopecurus pratensis</i>	Meadow Foxtail	-	-	Possibly localised
<i>Anthoxanthum odoratum</i>	Sweet Vernal-grass	-	-	Frequent
<i>Arrhenatherum elatius</i>	False Oat-grass	-	-	Widespread
<i>Bolboschoenus maritimus</i>	Sea Clubrush	-	-	Frequent
<i>Brachypodium sylvaticum</i>	False Brome	-	-	Localised
<i>Bromus mollis</i>	Soft Brome	-	-	Possibly localised
<i>Butomus umbellatus</i>	<b>Flowering Rush</b>	-	Occasional (LF)	Localised
<i>Carex acuta</i>	<b>Slender Tufted-sedge</b>	-	Occasional	Localised
<i>Carex acutiformis</i>	Lesser Pond-sedge	-	-	Frequent
<i>Carex cf. caryophylla</i>	Spring Sedge	-	-	Localised
<i>Carex disticha</i>	<b>Brown Sedge</b>	-	Occasional	Frequent
<i>Carex flacca</i>	Glaucous Sedge	-	-	Localised
<i>Carex hirta</i>	Hairy Sedge	-	-	Widespread
<i>Carex otrubae</i>	False Fox-sedge	-	-	Frequent
<i>Carex pendula</i>	Pendulous Sedge	-	-	Localised
<i>Carex riparia</i>	Greater Pond-sedge	-	-	Widespread
<i>Carex spicata</i>	Spiked Sedge	-	-	Localised
<i>Cortaderia selloana</i>	Pampas-grass	-	-	Localised
<i>Cynosurus cristatus</i>	Crested Dog's-tail	-	-	Frequent
<i>Dactylis glomerata</i>	Cock's-foot	-	-	Widespread
<i>Deschampsia cespitosa</i>	Tufted Hair-grass	-	-	Widespread
<i>Eleocharis palustris</i>	Common Spike-rush	-	-	Frequent
<i>Elytrigia repens</i>	Couch	-	-	Widespread
<i>Festuca arundinacea</i>	Tall Fescue	-	-	Localised
<i>Festuca gigantea</i>	Giant Fescue	-	-	Localised
<i>Festuca ovina</i>	Sheep's Fescue	-	-	Localised
<i>Festuca pratensis</i>	Meadow Fescue	-	-	Localised
<i>Festuca rubra</i>	Red Fescue	-	-	Frequent
<i>Glyceria fluitans</i>	Floating Sweet-grass	-	-	Widespread
<i>Glyceria maxima</i>	Reed Sweet-grass	-	-	Widespread

**TABLE 13.1 - REVIEW OF NATURE CONSERVATION SITES WITHIN EASTBOURNE BOROUGH**

SITES	CURRENT STATUS	QUALIFYING REASONS	RECOMMENDED REVISED STATUS
<b>Statutory Designated Sites</b>			
Willingdon Down SSSI	Designated 1986	Exception example of Unimproved Chalk Grassland.	n/a
Beachy Head to Seaford SSSI	Designated 1986	Exception example of Unimproved Chalk Grassland. NCR & GCR Site.	n/a
<b>Non-Statutory Designated Sites</b>			
Langney Levels SNCI -E1	Designated 2003	Remnant coastal grazing marsh, with rich wetland flora including uncommon species such as Narrow-leaved Water-plantain <i>Alisma lanceolatum</i> .	SNCI
Langney Sewer SNCI -E4	Designated 2003	Presence of Red Data Book Sharp-leaved Pondweed <i>Potamogeton acutifolius</i> , and a rich wetland flora. Important corridor linking Eastbourne Park with Langney Leve	SNCI
Prince William Parade SNCI -E7, see Figure 13.2a	Designated 2003	Last remnant of Vegetated Shingle set within original shingle ridge sequence. Of significant ecological & geomorphological interest. Uncommon species such as the lichen <i>Beltigera canina</i> , <i>Cladonia furcata</i> and <i>Coelocaulon aculeatum</i> ; and Ray's Knotgrass <i>Polygonum oxyspermum</i> .	Proposed LNR
Langney Crematorium SNCI -E14	Designated 2003	Extensive area of Neutral Semi-Improved Grassland with uncommon plants such as Autumn Lady's-tresses <i>Spiranthes spiralis</i> , and a small pond and ditch. Tentative evidence of a decline in grassland quality since 2000	SNCI (under review)
Crumbles Sewer SNCI -E18	Designated 2003	Bankside habitat supporting breeding birds such as Reed Warbler, important corridor linking between Eastbourne Park and Sovereign Park.	SNCI
Langney Centre Pond SNCI -E21, see Figure 13.2b	Designated 2003	Large duck pond with breeding wildfowl, surrounded by mature woodland. Nearby presence of Wet Woodland and three further waterbodies in Site E20 is not acknowledged in the SNCI designation.	SNCI area to be extended.
Horseley Sewer -E29	Designated 2003	Bankside habitat supporting breeding birds such as Reed Warbler, and important corridor interlinking with Eastbourne Park.	SNCI
Highfield Industrial Estate -E38	Designated 2003	Approximately two-thirds of the Site lost to industrial development, remaining areas consist of disturbed ground and the adjacent sewer.	Lose SNCI status
Holywell & Crow's Nest Steps -E77	Designated 2003	Presence of Unimproved Chalk Grassland, within encroaching invasive plants and shrubs. Control of invasive species urgently required.	SNCI
Cliff below The Helen Garden -E78	Designated 2003	Coastal chalk cliff with Unimproved Chalk Grassland, cliff specialists such as the Red Data Book Rock Sea Lavender <i>Limonium binervosum</i> spp. <i>binervosum</i> .	SNCI
Ocklynge Cemetery -E86	Designated 2003	Extensive area of Semi-Improved Chalk Grassland that currently appears to be under favourable management.	SNCI
Eastbourne War Memorial Field -E89	Designated 2003	Presence of Unimproved Chalk Grassland.	SNCI
Upper Duke's Drive -E94, see Figure 13.2c	Designated 2003	Presence of Unimproved Chalk Grassland, with lichen-rich bark on elm street trees. Further Unimproved Chalk Grassland on banks of Upper Duke's Drive near to junction with Beach Head Road.	SNCI area to be extended.
The Coppice -E96	Designated 2003	Mature woodland and stream containing Ancient Woodland Vascular Plants.	SNCI
Willingdon Roundabout -E98, see Figure 13.2d	Designated 2003	Unimproved Chalk Grassland with abundant orchids, well known to Eastbourne residents.	Proposed LNR
Ocklynge Pit -E101	Designated 2003	Chalk grassland surrounded by mature secondary woodland. Appears to have been extensive dumping on quarry floor that may have destroyed the chalk grassland interest.	SNCI (under review)
Leeds Avenue Reed Bed -E116, see Figure 13.2e	Designated 2003	Large intact area of reedbed in urban area, supporting rich wetland flora and breeding Reed Warbler and Reed Bunting.	Proposed LNR
Hampden Park & Ham Shaw -E117, see Figure 13.2f	Designated 2003	Extensive area of mature woodland with a rich lichen and bryophyte interest, of high value for woodland breeding birds, invertebrates and fungi.	Proposed LNR (plus extension to original SNCI)
Sovereign Harbour Beaches -E118	Designated 2003	Disturbed remnant of Vegetated Shingle which could retain some of the uncommon species previously known from the Crumbles, an shingle ridge system that was lost to residential housing in the 1990s.	SNCI
<b>Currently Un-Designated Sites</b>			
Eastbourne Park, see Figure 13.3a	None	Extensive wetland area with Coastal Floodplain Grassland, floristically species-rich ditches, reedbed and open water habitats. At least 6 open water communities, 13 marginal and emergent communities and 4 inundated ground communities. Supports a number of Red Data Book species such as Great Silver Diving Beetle <i>Hydrophilus piceus</i> , Shining Ram's-horn <i>Segmentina nitida</i> and Wide-mouthed Valve Snail <i>Valvata macrostoma</i> ; significant numbers of breeding Reed Bunting, Reed Warbler & Sedge Warbler; significant numbers of passage migrants such as Snipe; and over 35 uncommon higher plants including the only Sussex site for Fen Pondweed <i>Potamogeton coloratus</i> and many other County rarities such as Blunt-flowered Rush <i>Juncus subnodulosus</i> .	Proposed LNR
Eastbourne Downland Estate (including Sites E115), see Figure 13.3b	Part SSSI	Extensive downland area with fragments of Unimproved Chalk Grassland and mature scarp woodland, with numerous attendant uncommon species. Extensive land reversion to chalk downland under arable/pasture rotation system or managed as ESA grassland. Provides an extensive area to link within Green Network.	Proposed LNR
Lakelands Conservation Pond, see Figure 13.3b	None	Originally proposed as an SNCI, this area now forms part of Eastbourne Park.	Proposed LNR (as part of Eastbourne Park)
Upland Road (No. E109), see Figure 13.3c	None	Originally proposed as an SNCI in 2000. Floristically-rich area of Unimproved Chalk Grassland.	Proposed LNR (+/- part of Eastbourne Downland Estate)
Priory Heights Horse Paddock (Site E115), see Figure 13.3d	None	Originally proposed as an SNCI in 2000. Floristically-rich area of Unimproved Chalk Grassland.	Proposed LNR (as part of Eastbourne Downland Estate)
Southern Verge along Beachy Head Road & adjacent Meads Reservoir, see Figure 13.3e	None	Northern bank along Beachy Head Road falls within Compartment 11 of the Eastbourne Downland Estate, however the southern verge is not acknowledged in either the 1990 or 2000 surveys and contains good quality Unimproved Chalk Grassland. Restricted access to Meads Reservoir (again not acknowledged in either the 1990 or 2000 surveys) but appears to contain extensive Unimproved Chalk Grassland (observed through locked gate).	Proposed SNCI (status within Reservoir requires surveying)
Willingdon Golf Course (No. E113), see Figure 13.3f	None	Originally proposed as an SNCI in 2000. Approximately three areas of Unimproved Chalk Grassland concentrated in the north and west of the Golf Course. Contains significant floral interest and butterflies including Chalkhill Blue <i>Lycaena coridon</i> .	Proposed SNCI (requires re-surveying)
Royal Eastbourne Golf Course (Nos. E90 & E108), see Figure 13.3g	None	Site E108 was originally proposed as an SNCI in 2000. Approximately five areas of rough Chalk Grassland surveyed in 2000 - comprising the western half, sunken path, fairway, chalk and bank. All containing significant floristic interest.	Proposed SNCI (requires re-surveying)
Land adjacent to Seaside Roundabout (No. E15), see Figure 13.3h	None	Formally contained an area of fen habitat in 1990, but has dried out since and becoming increasingly overgrown due to lack of any management. Presence of Dittander <i>epidium latifolium</i> is of considerable interest. Site could potentially contribute towards the Green Network through its strategic position beside Crumbles Sewer SNCI, near Leeds Avenue Reed Bed SNCI.	Proposed SNCI (subject to to management agreement)
Land beside Crumbles Retail Park, along Harbour Quay, see Figure 13.3i	None	Landfill area with regenerating Vegetated Shingle, Scrub and Semi-Improved Grassland. High potential to contain remnants of the former Crumbles shingle invertebrate fauna. Plants include Bee Orchid <i>Ophrys apifera</i> and a large extensive colony of Yellow-horned Poppo <i>laucum flavum</i> .	Proposed SNCI (requires surveying)
Compton Court (No. E72), see Figure 13.3j	None	Parkland trees of potential value for roosting bats, lichens and bryophytes. Important strategic location within Green Network, abutting Royal Eastbourne Golf Course and scarp woodland.	Candidate SNCI (requires surveying)
Highfield County Junior School Environmental Pond Area (Site S8A) and adjacent Site S8B, see Figure 13.3k	Informal Designation within School Grounds	Complex of Willow woodland and scrub, surrounding a large pond with swamp vegetation. No access during the Audit. Previous survey in 1990 did not record presence of the pond, subsequently noted in 2000. Origin and/or purpose of pond not known.	Candidate SNCI (requires surveying)
Cavendish School (No. S17), see Figure 13.3l	None	Grassy bank along southern frontage of School noted as being of interest in 1990 and 2000. Northern and eastern banks in 2007 also noted to be of interest with a range of chalk grassland indicators such as Blue Fleabane <i>Erigeron acer</i> and Strawberry Clover <i>Trifolium fragiferum</i> .	Candidate SNCI (requires surveying)
