

LEGEND

-  Lewes DC Boundary
-  Dry Day Reservoir Flood Extent
-  Wet Day Reservoir Flood Extent

NOTES

The Environment Agency's Reservoir Flood Mapping shows individual flood extents for all large raised reservoirs within England.

This data shows the individual flood extents for all large raised reservoirs in the event that they were to fail and release the water held on a "dry day" when local rivers are at normal levels and on a "wet day" when local rivers have already overflowed their banks.

It represents a prediction of a credible worst case scenario and gives no indication of the likelihood of reservoir flooding.

The reservoir flood extent datasets were downloaded from the DEFRA Data Services Platform: <https://environment.data.gov.uk/>.
